A guy is swerving down the road and gets pulled over. The cop says, "You have to take a Breathalyzer test." The guy says, "I can't. I have asthma, and it'll start me on a coughing fit." The cop says, "Then I have to give you a blood test." The guy says, "You can't. I'm a hemophiliac, and if you prick me, I'll bleed all over the place." The cops says, "Then you have to get out of the car and walk a straight line." The guy says, "I can't." The cop says, "Why not?" A gynecologist had become fed up with malpractice insurance and was on the verge of being burned out. Hoping to try another career where skillful hands would be beneficial, he decided to change careers and become a mechanic. He found out from the local technical college what was involved, signed up for evening classes, attended diligently, and learned all he could. When the time for the practical exam approached, the gynecologist prepared carefully for weeks, and completed the exam with tremendous skill. When the results came back, he was surprised to find that he had obtained a score of 150%. Fearing an error, he called the instructor, saying "I don't want to appear ungrateful for such an outstanding result, but I wondered if there had been an error which needed adjusting." The instructor said, "During the exam, you took the engine apart perfectly, which was worth 50% of the total mark. You put the engine back together again perfectly, which is also worth 50% of the mark." The instructor went on to say, "I gave you an extra 50% because you did all of it through the muffler."

"I'm fluent in several languages — I speak schmooze,

Everyone was seated around the table as the food was being served. When little Logan received his plate, he started eating right away. "Logan, wait until we say our prayer," his mother reminded him. "I don't have to," the little boy replied. "Of course you do," his mother insisted, "we say a prayer before eating at our house." "That's at our house," Logan explained, "but this is Grandma's house and she knows how to cook."

Luke: Let's talk about our worries.

me: OK, Luke, what do you worry about?

Luke: You go first.

me: OK. I worry that I'm not going to do a good enough job raising you and Sally. I just want you to be happy, healthy grown-ups.

Luke: That's a good one.

me: Thanks.

Luke: I'm worried that you're going to get arrested.

me: What??! Why would I get arrested??

Luke: Because you're not doing a good enough job raising me and Sally.

Where to Publish Your Paper

If you understand it and can prove it, then send it to a journal of mathematics.

If you understand it, but can't prove it, then send it to a physics journal.

If you can't understand it, but can prove it, then send it to an economics journal.

If you can neither understand it nor prove it, then send it to a psychology journal.

Silly Sally

Sally was leaving the office one Friday evening when she encountered Mr. Jones, the Human Resources manager, standing in front of a shredder with a piece of paper in his hand.

Listen," said Mr. Jones, "this is important, and my secretary has already left. Can you make this thing work?"

"Certainly," said the secretary. She turned the machine on, inserted the paper, and pressed the start button.

"Excellent, excellent!" said Mr. Jones as his paper disappeared inside the machine. "I just need one copy."

When NASA first started sending up astronauts, they quickly discovered that ball-point pens would not work in zero gravity.

To combat this problem, NASA scientists spent a decade and \$12 billion developing a pen that writes in zero gravity, upside down, underwater, on almost any surface including glass and at temperatures ranging from below freezing to over 300° C.

The Russians use a pencil.

NASA decided to send a shuttle into space with two monkeys and an astronaut. They trained them for months. Then when they thought they were ready, they placed all three in the shuttle and got ready to send them up into space. As the moment came closer NASA's mission control center announced, "This is mission control to Monkey One. Initiate!"

At that the first monkey started typing like mad and suddenly the shuttle's engines ignited and the shuttle took off.

Two hours later NASA's mission control center announced, "This is mission control to Monkey Two. Initiate!"

At that the second monkey started typing like mad and suddenly the shuttle separated from the empty fuel tanks. Another two hours later mission control announced, "This is mission control to the astronaut..."

At this the astronaut responded "I know, I know. Feed the monkeys and don't touch anything."

*Make Someone
Laugh & You Will
Both Be Happy!*

Two employees for the gas company were at a house call. The younger man said to the older one, "Man, you're old!" "Yeah, that may be so, but I can still outrun you," replied the older employee. "How about a foot race to see if you're right," said the younger employee. With that they start running at full speed around that block. The older man kept up with the younger man around the first corner, the second corner, the third corner.

As they come up on the last corner, the younger man sees an elderly woman running as fast as her legs could carry her. Puzzled by this, they both stop ask her why she was running behind them.

The old woman caught her breath and said, "Well, you were at my home checking my gas meter, and when I saw you running away, I figured I'd better run too!"

It was entertainment night at the senior center and the Amazing Claude was topping the bill. People came from miles around to see the famed hypnotist do his stuff. As Claude went to the front of the meeting room, he announced, "Unlike most hypnotists who invite two or three people up here to be put into a trance, I intend to hypnotize each and every member of the audience." The excitement was almost electric as Claude withdrew a beautiful antique pocket watch from his coat. "I want you each to keep your eye on this antique watch. It's a very special watch. It's been in my family for six generations." He began to swing the watch gently back and forth while quietly chanting, "Watch the watch, watch the watch, watch the watch..." The crowd became mesmerized as the watch swayed back and forth, light gleaming off its polished surface. Hundreds of pairs of eyes followed the swaying watch, until, suddenly, it slipped from Claude's fingers and fell to the floor, breaking into a hundred pieces.

..... **"Crap"** he exclaimed !
It took three days to clean up the Senior Center!

Grandpa's Wisdom

Experience

There is an old saying, "Experience is the best teacher." But not so. Far better to learn without the costly and painful process of experience, which one may undergo without learning anything, as can be seen all about us.

PONDERISMS:

- * Experience is the hardest kind of teacher. It gives you the test first and the lesson afterward.
- * Past experience should be a guide post, not a hitching post.
- * An optimist is a guy without much experience.
- * Some people speak from experience; others, from experience, don't speak.
- * There is only one thing more painful than learning from experience, and that is not learning from experience.
- * There's nothing like a little experience to upset a theory.
- * One thing about the school of experience is that it will repeat the lesson if you flunk the first time.
- * Some people learn from their experiences, some never recover from them.
- * The definition of experience is knowledge acquired too late.
- * If Experience Is Such A Good Teacher Why Do I keep Repeating The Course?
- * Experience is a costly teacher, but fools will learn from no other.

~~~~~  
Experience is:

- \* What you get when you are looking for something else.
- \* What you have left after everything else is gone.
- \* Something you don't get until just after you need it.
- \* The name everyone gives to their mistakes.
- \* Knowledge acquired too late.
- \* Knowing a lot of things you shouldn't do.
- \* The one thing you have plenty of when you're too old to get the job.
- \* A good school...but it's not very strong on vacations.
- \* Is something you don't get until just after you need it.

## ***Do You Know Virgil Minks?***

I had a good experience with Walter Gobitas. His knowledge and real concern for my needs put me at ease. He really wants your hearing to be better and this is very important for you to be comfortable with your aids.

With the results of a hearing test in hand Walter paired me with aids that addressed my current needs. The new technology addressed both the hearing through the ear drum and through the bone structure surrounding the ear canal. Now my hearing is much better, I am comfortable and my wife appreciates the change as well.
